RE: Stericycle, Inc. Infectious Waste Transfer Station, Solid Waste Processing Facility Operating Permit Number 0807701, Greene County

Dear Messrs. Cunningham and Andrews:

A request for an Operating Permit has been filed with the Missouri Department of Natural Resources' Solid Waste Management Program (SWMP) for the Stericycle, Inc. Infectious Waste Transfer Station, Solid Waste Processing Facility Construction Permit Number 0807701.

Whereas, the permittee has demonstrated compliance with the requirements of 10 CSR 80-2.020(3)(B) to the department's satisfaction; an Operating Permit is hereby granted for the facility as described on the plan sheets. This Operating Permit is hereby made an official part of Solid Waste Processing Facility Construction Permit 0807701.

The following document is incorporated by this reference into Permit Number 0807701:

DOCUMENT:

A letter requesting the Operating Permit, signed by Tony Maxson, P.E., Mr. Brian Cunningham, operator and Mr. Marion Andrews, owner, received May 28, 2003.

This approval is not to be construed as compliance with any existing federal or state environmental laws other than the Missouri Solid Waste Management Law; nor should this be construed as a waiver for any other regulatory requirements. This approval is not to be construed as compliance with any existing local permitting or zoning ordinances; nor does it supersede any local permitting and/or zoning requirements.

The department reserves the right to revoke, suspend, or modify this approval and/or Permit Number 0807701 if the permit holder fails to maintain the facility in compliance with the state's Solid Waste Management Law, with the terms and conditions of the permit, and the approved engineering plans and specifications.

FACILITY DESCRIPTION

This facility is an infectious waste processing facility located in Springfield, Missouri at 1401 West Olive Street, generally in the E 1/4, W 1/4, Section 23, Township 29 North, Range 22 West, Greene County, Missouri. This permit applies only to the tract of land consisting of approximately .37 acres as described by the engineering plans, specifications, and operating procedures submitted to the department. The transfer station will include a 6,100 square foot building to be used for waste collection and transfer operations. The remaining acreage is to be utilized for transfer station related design features such as parking, buffer zone, and storm water diversion structures.

PERMIT DOCUMENTS

These documents are incorporated by this reference into Permit Number 0807701:

1. Application for Solid Waste Disposal Area or Processing Facility Construction Permit form, received December 18, 2002, designating Mid America Parts, Mr. Marion Andrews as the property owner; Stericycle, Inc. as operator of the transfer station; and EMCOM/OWT Solid Waste, as the engineering firm.

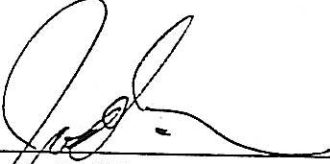

appurtenances shall be provided as per the approved plans, specifications, and operating procedures. The plans, specifications, and operating procedures described above have been examined as to engineering features of design which might affect the operation of the solid waste processing facility as a transfer station.

MODIFICATION AND TERMINATION OF PERMIT

The department reserves the right to revoke, suspend, or modify Permit Number 0807701 after due notice if the permit holder fails to maintain the facility in compliance with: the Missouri Solid Waste Management Law and regulations; the terms and conditions of the permit; and the approved engineering plans and specifications; or for creating a public nuisance, health hazard, or causing pollution.

RE: Stericycle, Inc. Infectious Waste Transfer Station, Solid Waste Processing Facility Construction
Permit Number 0807701, Greene County

Dear Messrs. Cunningham and Andrews:

Your application for a construction permit has been filed with the Missouri Department of Natural Resources' Solid Waste Management Program (SWMP) requesting a permit to construct a solid waste processing facility designated in the application as the Stericycle, Inc. Infectious Waste Transfer Station, Greene County, Missouri. The application was prepared and filed by Anthony E. Maxson, P.E. of EMCON/OWT and submitted to the department for review and approval. The application includes engineering plans, specifications, operating procedures, and subsequent correspondence or amendments for the subject processing facility. The application has been reviewed for compliance with the Missouri Solid Waste Management Law (Sections 260.200 to 260.345, RSMo) and the Missouri Solid Waste Management Regulations.

In accordance with Section 260.205.2, RSMo, the department hereby approves the application as provided in the enclosed "Solid Waste Processing Facility Construction Permit Number 0807701" issued to Mid America Parts, Mr. Marion Andrews, owner; and Stericycle, Inc., Mr. Brian Cunningham, operator, to construct a solid waste transfer station as of the date of this letter. The permitted boundary of the transfer station is located within the city limits of Springfield, Missouri, in the E 1/4 of the W 1/4 of Section 23, Township 29 North, Range 22 West, Greene County, Missouri. This permit applies only to that tract of land consisting of approximately .37 plus/minus acres as described by the engineering plans, specifications, and operating procedures submitted to the department. The transfer station will include a 6,100 square foot building to be used for waste collection and transfer operations. The remaining acreage is to be utilized for transfer station related design features such as parking, buffer zone, and storm water diversion structures.

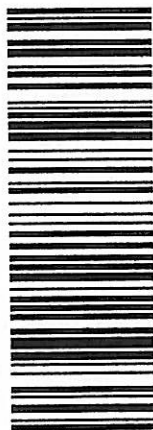

The department may review this permit after the date of issuance and notify the permit holder as necessary to assure the transfer station continues to comply with the currently applicable requirements and provisions of the Missouri Solid Waste Management Law and rules adopted thereunder. Approval of the application and issuance of this permit is given with the explicit understanding that the transfer station will be developed and operated in compliance with the approved plans, specifications, operating
